In February 2025 the first RRMBA Lunch & Learn was held at 200 Main in Winnipeg, where we hosted Joe Keszi from Prairies Can to present on the Business Scale-up and Productivity (BSP). ➤ RRMBA REGIONAL AFTER BUSINESS MIXERS AND OTHER EVENTS

Originally when the RRMBA was being conceived and then launched through the Summer and into the Fall of 2024, the plan as to start offering a Lunch & Learn series to members along with continuing to host RRMBA Business Mixers in all the MMF Regions throughout Manitoba. These smaller events are in part a response to the 2024 Probe Research Survey results that showed the high level of interest among Red River Métis entrepreneurs in networking events and opportunities and activities that add value to their business.

The first RRMBA event was the Métis Business Excellence Awards, May 2024 which was followed by the Red River Métis Business Expo in December 2024. MÉTIS N4 CONSTRUCTION

»»» BUILDING OPPORTUNITIES

Capital construction projects are an economic force fueling opportunities for Red River Métis labour and trades. We target Red River Métis labour participation at a minimum of 28% on all our projects and have achieved as high as 70% on projects in the Métis N4 portfolio. We are always looking for skilled Red River Métis companies to bid on our competitively tendered projects and are actively seeking skilled Red River Métis workers to match with our partners in industry.

In September 2024 we led the first MMF Construction Industry event targeting post-secondary students in search of internships, apprenticeships and employment. With MMF Métis Employment and Training as our trusted partner, we have assisted many individuals in landing their first career placement through the strength of reputation and relationships.

In May 2025 we will be engaging with the Association of Professional Engineers and Geoscientists to strengthen opportunities for Red River Métis post-secondary students to find their place in these respected professions. Red River Métis professionals are highly sought after on consulting teams for capital projects.

We are always open for business to meet with Red River Métis trades and individuals seeking opportunities provided by Métis Capital projects on behalf of the National Government of the Red River Métis.

OUR IMPACT IN ACTION

>>> WHAT OUR CLIENTS SAY

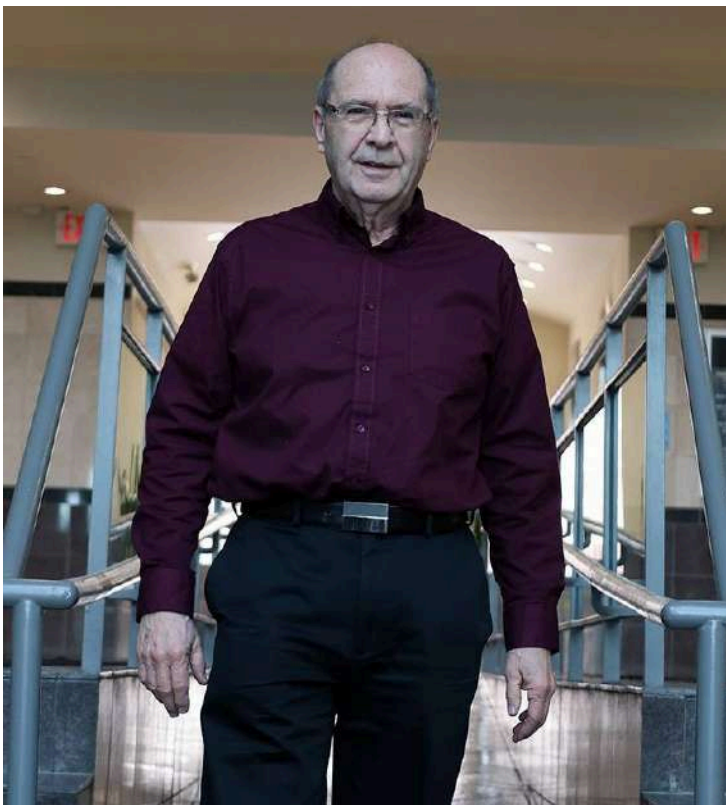

I want to give a huge shoutout to LRCC for being an incredible partner throughout my entrepreneurial journey.

Fifteen years ago, I was overjoyed to secure my first Kid City location at 801 Century Street—the first step in turning my dream of opening up an Indoor Play Center into reality. From the very beginning, LRCC was there to support me, and now, 15 years later, as I embark on an exciting expansion, they are right by my side once again.

I can't thank LRCC enough for being such a valuable ally and for continuously supporting me and my small local business! Thank you - Deena Caplette, Founder, Kid City

RED RIVER MÉTIS POWER CORPORATION

>>> EMPOWERING OUR FUTURE

On October 18, 2024 the Manitoba Métis Federation launched the Red River Métis Power Corporation (RRMPC). This latest MMF Affiliate company will advance Red River Métis development of new renewable wind energy to help power our Province, invest in our communities, and build a legacy of sustainable success.

At its core, the RRMPC is a testament to Red River Métis ingenuity and resilience. With intentions to pursue up to 300 Megawatts (MW) in wind energy production on the near term — enough to power a staggering 90,000 homes daily — the MMF and its Power Corporation is not just addressing the energy needs of Manitoba but also carving out a prosperous future for Red River Métis Citizens.

This isn't just about clean energy, it's about creating real, tangible opportunities. Every wind turbine built and every kilowatt generated represents jobs for Red River Métis workers, growth for local businesses, and a ripple effect of economic benefits that will strengthen our communities.

"This is another example of the Red River Métis investing in the heart of the Homeland, to the benefit of all who share this land with us," said President Chartrand on the day of the announcement. "The Red River Métis are focused on being a driving force for positive change, both economically and environmentally, and we believe wind power is an important way to secure a stable future for all. Manitobans will be proud of this great partnership between the Government of Manitoba and the Red River Métis Government."
